- a. The committee shall examine all evidence regarding the incident as it deems necessary. This may, but is not necessary or limited to, include interviewing the player in question, interviewing witnesses, examining player history, and interviewing the officials working the game.
- b. The committee shall render a timely decision, although the speed of this decision will depend on the complexity of the case. Any player with a Reportable Event in question shall not participate in a game until a decision has been reached.
- c. In the event that a committee member cannot be reached within a reasonable amount of time to decide on a case (e.g. at a tournament), then the other available committee members may appoint a substitute as outlined in Section 1b.
